

RMP195

19 INCH RACK MOUNT

TECHNICAL DATA

- Machined aluminum construction
- Secure retaining clamp
- Openings for front to rear coaxial cable routing
- Rocker switch for master power supply
- Fits Lectrosonics IFBT4 transmitters and UCR411/A receivers

Up to four IFBT4 transmitters or UCR411/A receivers can be rack mounted in a 1RU space. The units are retained by an aluminum bar to keep them in place, even in rough mobile applications.

Power from an external supply can be routed through a rocker switch on the front panel to provide a convenient master power switch.

Openings in the front panel allow cabling to be routed from front to rear, or vice versa, for a variety of antenna and power mounting options.

Specifications

Dimensions:	
Width:	19.000 in. (482.6 mm)
Depth:	6.375 in. (161.9 mm)
Height:	1.750 in. (44.5 mm)w
Weight:	1.24 lbs. (20 ozs.)

Optional Panel Blank

P/N 26289 Aluminum blank panel fills opening of unused slot; same finish as the RMP195 front panel
